Professional Summary

Detail-oriented and adaptable Software Developer with **2.6+ years of experience** in Java-based microservices architectures and full-stack development. Expertise in designing scalable, high-performance solutions using **Java, Spring Boot, Angular, React Native, REST APIs,** and SQL databases. Recognized for rapid learning, technical excellence, and effective collaboration in Agile environments.

Skills

- **Languages:** Java, JavaScript
- **Backend:** Spring Boot, Spring Security, Feign Client, Circuit Breaker, JPA, Hibernate, Kafka
- **Frontend:** Angular, React Native
- **Microservices:** Eureka Server, API Gateway, RESTful APIs
- **Databases:** SQL, MySQL
- **Cloud & DevOps:** AWS, Jenkins, Docker
- **Tools:** Git, GitLab
- **Methodologies:** Agile, Scrum

Work Experience

Software Developer
UBQ Technologies Pvt. Ltd., Bangalore
May 2023 – Present

- Designed secure RESTful APIs with Spring Boot and JWT-based authentication.
- Integrated Feign Client for efficient service-to-service communication in microservices.
- Implemented JPA and Hibernate for optimized database management.
- Developed responsive UI components using Angular and built cross-platform mobile apps with React Native.
- Engineered microservices integration with Eureka Server Gateway for scalable routing.
- Ensured system reliability using Circuit Breaker patterns for fault tolerance.
- Built secure modules for expense tracking, lead generation, and retailer onboarding.
- Collaborated with QA, UI/UX, and product teams to deliver stable, feature-rich backend services.
- Awarded "Spot Award Q3 2023" for mastering new technologies and "Technology Champ Q2 2024".

Projects

Supply Chain Management Platform
Feb 2024 – Present

- Developed and maintained Spring Boot microservices for lead management, expense tracking, and onboarding workflows.
- Implemented secure REST APIs with JWT authentication and RBAC.
- Used Apache Kafka for real-time notifications, boosting user engagement.
- Built Angular dashboards for admins and React Native apps for field reps.

Document Management System
May 2023 – Feb 2024

- Engineered a secure document storage and retrieval platform using microservices.
- Integrated authentication, authorization, and metadata-driven document processing.
- Optimized database queries for high performance and low latency.
- Designed a user-friendly, responsive UI for seamless access.

Education

Bachelor of Computer Applications (BCA)
RDS College, Muzzaffarpur (2021)

Intermediate (12th)
NN College, Vaishali (2018)

Achievements

- **Spot Award Q3 2023** – For swiftly mastering new technologies and methodologies at UBQ Technologies.
- **Technology Champ Q2 2024** – Recognized for technical leadership and innovation.

Additional Information

- **Notice Period:** Immediate/Negotiable
- **Languages:** English, Hindi
